

Alternatives for the Demilitarization of Conventional Munitions

*Report Release Webinar
December 6, 2018 at 1:30pm EST*

What alternative technologies can replace open burning and open detonation for excess conventional munitions? What challenges remain before these alternative technologies can be implemented? On December 6, 2018 at 1:30pm EST, please join us for a webinar about our new report, *Alternatives for the Demilitarization of Conventional Munitions*. During the webinar, members of the study committee will discuss the key findings and recommendations of the report and take questions from the audience.

Speakers:

Todd Kimmell, Chair, Argonne National Laboratory
Douglas Medville, Vice Chair, Independent Consultant
Judith Bradbury, Independent Consultant
Rebecca Haffenden, Global Empire
